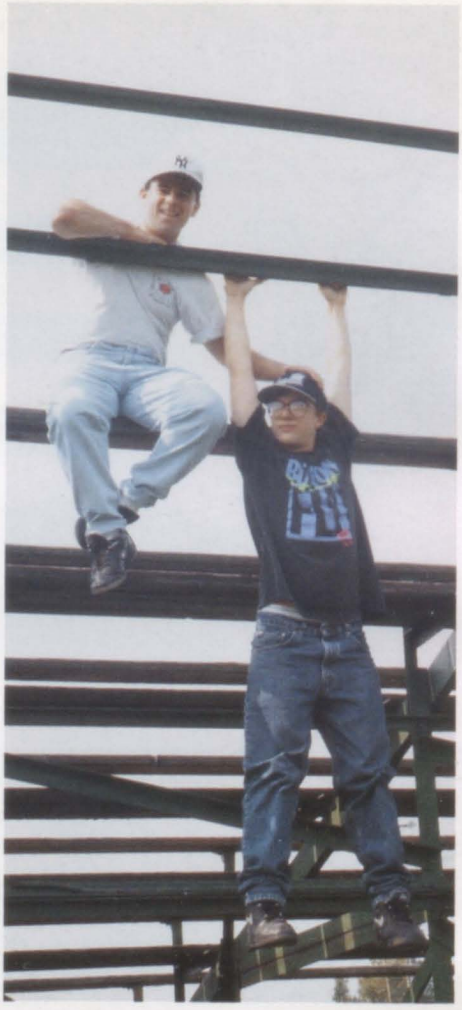
Knight Life

Another year has come and gone, and what a year it has been! For the sophomores it was a year of new experiences and beginnings of life long friendships. For the juniors it was a time to buckle down and continue in their search for knowledge.

For the seniors it was a very special year. It was time for being at the top of the heap. It was a time for doing things for the last time ... ever. Many were preparing for the future, and many were remembering the past. Perhaps the De-o-wain-sta staff of 1966 put it best when they said:

"Rome Free Academy, our carrying place, has helped us mold the most important years of our lives. We have risen from youth to adulthood, from dependence to responsibility, from impatience to tolerance, from dreams to reality, projecting into everyday life the prominence of these newly acquired ideals."

It is now time to move on, strive for greater goals, and not yield. One of the hardest things to do is to part with your friends. You won't have to look back to see those friends: part of your mind will see them forever.



JUST HANGIN' AROUND. Mike Carterucci and Chris Wheadon.

THE CARRING PLACE. Rome extends a cheerful welcome to all.

KNIGHTS OUT

Although school is an important factor, it is not the only aspect of student life. Serving as both an academic and social institution RFA provides a common ground for students and friends to come together.

Not only were the students concerned with making new friends, but also with strengthening old bonds of friendship. Social activities filled the weekends and empty afternoons. Major social events included the Junior Prom and Pep Rally. Students ransacked Rome in hopes of discovering a new activity. While many were successful in their pursuit of a "knight out", others found handing out with friends to be the only solution.

Whether they were in or out of school, our students on the following pages found an enjoyable way to spend their time.

OUT TO LUNCH. Pete Civetelli, Mark Opper, Rick Powell, Carl Pinkington, and Pat DiBerardino taking their lunch break at Tony's Pizza.

KNIGHTS AT WORK

The students are employed at local businesses around the city. By taking advantage of such employment opportunities, the students learn about handling responsibility. It teaches them the valuable lessons of cooperation, finances, and satisfaction when the job is completed. Many times the money earned from such jobs is deposited into savings accounts which will be in turn used to defray college costs. Capitalizing on an employment opportunity while still a high school student shows a willingness to succeed with their life.

WHAT KIND OF DRESSING WOULD YOU LIKE? Julie Tidd prepares a dinner salad for a customer at Fric & Frac's Flying Food Factory.

IS YOUR SCOOP OPEN? Kelly Horton "cleans" up after the deer and goats in the Petting Area at the Fort Rickey Game Farm.

NICE VIEW! Rondell Williams sees all from his view of the world. As you can see Rondell is pretty tall and we're thankful to have him on our basketball team.

FOURSOME! Although the bonfire took a while to light, Kelly France, Taralyn Colon, Kristen Marier, and Shawna Rushford were happy just to be together, maybe they were just happy to see the fireworks!

SAY CHEESE! Jennifer Dombrowski, Chantra Saenger, and Tarah Bissonette gladly show off RFA's winning smile. All three of these Black Knights now sponsor Crest toothpaste because of their great smiles.

MISS UNIVERSE? Trisha Sears better hurry if she wants to be the next Miss Universe. Taking time out to do her homework will hold her back. Come on and start pumping or you are never going to make it.

ALL SMILES! Amy Small and Shelly Tartaglia wait patiently for soccer practice. Amy gave the Varsity 5 goals this season. Shelly, being a rookie, gave the team one goal. Although the season ended with 3 wins, they're all smiles!

WHIZ KID! Could Jason Kehoe be RFA's first computer genius? He handles that mouse like a real pro, even his teacher is stumped. Maybe "Jolly", as his friends call him, will be the next Doogie Howser.

EAGER BEAVER! Brian Magill flashes us the evil eye for interrupting his study time. He knows how important it is to make good grades in all his classes. We think with all this effort, he may even make merit roll. Keep studying Brian!

ABOVE AND BELOW

HELPING OUT. Below the stadium Dean Woodward and Fred Lampman help out in the concession stand. Their help is greatly appreciated by clubs that benefit from the money raised at the concession stand. We are very lucky to have staff and faculty as dedicated as they are.

BUNDLED UP. In the R.F.A. stands Dolores Buck and Marilyn Boris show their school spirit by attending a R.F.A. football game. Even in these freezing conditions they are still able to smile. Our team is grateful for fans as dedicated as you.

TEACHERS DO CARE

ARTISTS AT WORK. Judi Mullin takes a break with students Patty Torres and Jennifer Zelesnikar. Mrs. Mullin is always helping students achieve their best in their artwork. Her hard work shows up in many of her talented student's work.

LEAN ON ME. Erika Stephenson knows that she can go to Madeline Renzi for some extra help and support. Many of the teachers at R.F.A., like Mrs. Renzi, can give good advice as well as teach. Either way they are helping us prepare for the real world.

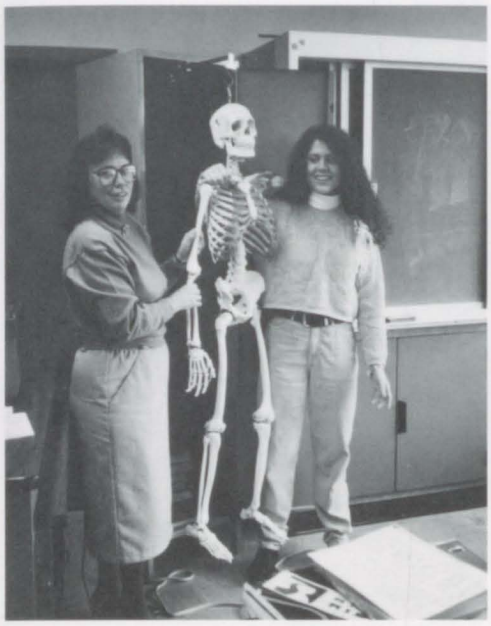
BONES AND MORE



SKELETON IN THE CLOSET. Diane MacLachlan and Mary Muttillo find their long lost friend in the closet. R.F.A. is fortunate to have a good Biology Department that has many supplies. The skeleton provides a hands on learning for the study of anatomy.

TEMPERATURE TIME. Joan Osborne takes the temperature of a solution as Corin Cozakoz looks on and records the data. Ms. Osborne knows that students-teacher interaction is essential to the learning process. Our chemistry students are lucky to have a teacher as involved as Ms. Osborne.

Joyce Cull comes from the land down under, Pennsylvania that is! When asked how she liked R.F.A. she simply replied, "It's okay."

Tina Constanza is a new teacher at R.F.A. "I am from Utica and I attended SUNY Geneseo. R.F.A. is a really good school and I'm really happy here."

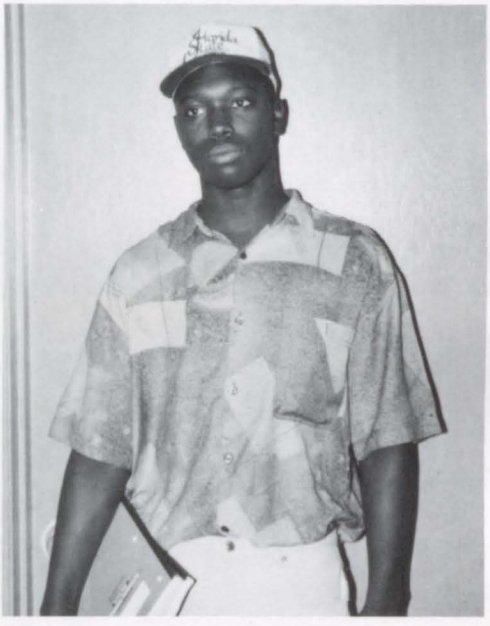
THE NEW KNIGHTS AT R.F.A.

We asked, "Where did you come from?" and "How do you like R.F.A.?" Here is what they said ...

Joshua Meyer comes from "Berlin, Germany. My father is with the military. R.F.A. is different and BIG!! I like the people a lot better." Glad you like it Josh!

Melody Danko, Joyce Cull, Derek Thomas, and Liz Carrasquillo are only four of the many new students at R.F.A. Here you will find students from all over creation!

Melody Danko didn't move far to get to R.F.A. She came from nearby V.V.S. Melody was quick to answer when we asked her how she liked R.F.A. "I don't", and that's all she said.

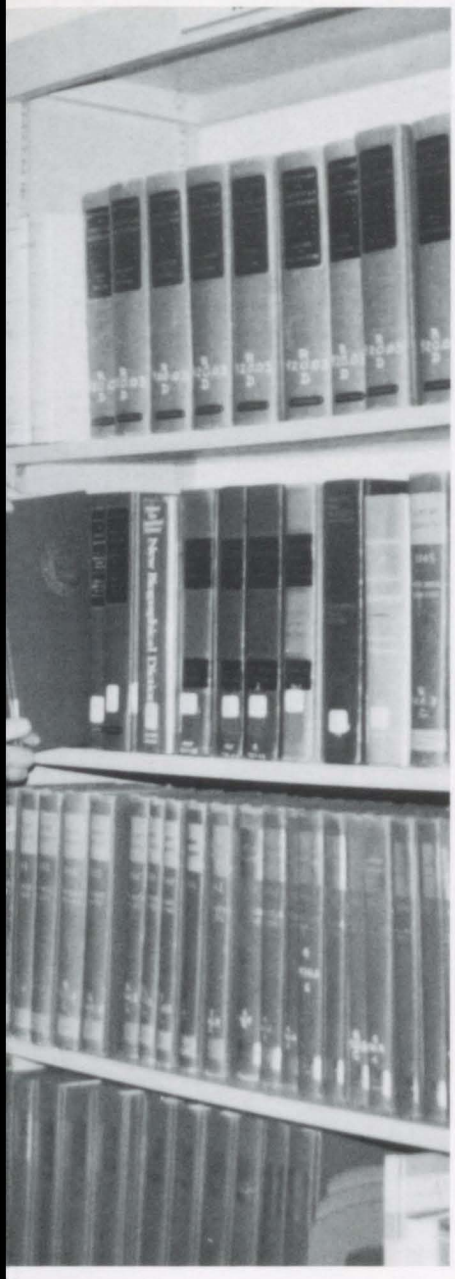


Derek Thomas is from New Jersey. He doesn't hold a very high opinion of R.F.A. saying "It isn't the best, but it's okay."

Lizbeth Carrasquillo is from the Bronx. She says R.F.A. is too quiet. "It isn't lively enough for me." That may be true, R.F.A. definitely lacks school spirit.

Berta Montero-Spain. I came to the United States to learn English, which is very difficult, and to study a new culture. I enjoy shopping because everything is cheaper than in my country. I don't really like American food and the weather is much colder than in Spain. I have met many friends here and my teachers help me as much as possible. I like being a student in such a big school but I will miss my new friends when we graduate and I return home.

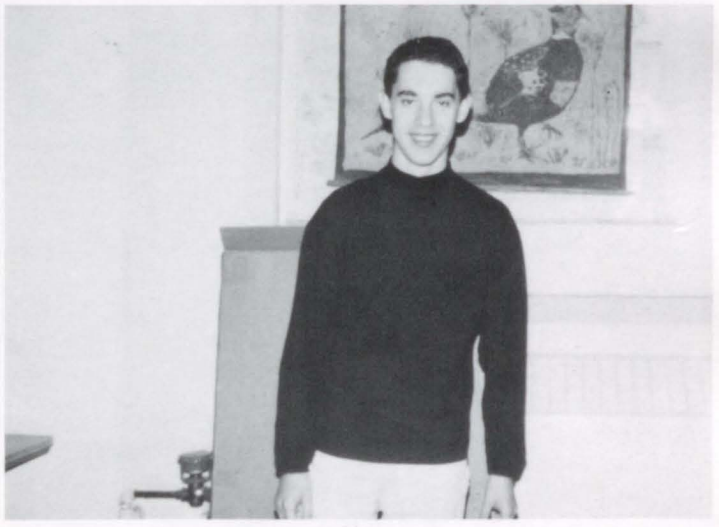
KNIGHTS AFAR



Simone Rosenberg-Germany. I came to the United States to learn the English language and to prove that I can be independent. In my opinion, RFA is too big, everyone is anonymous. Also, you need a pass or permit to go anywhere in the school. I am shocked that Americans are so wasteful and allow their environment and resources to disappear. I miss my family and I'm looking forward to returning to Germany with my friends. I feel alone and lost in this country but it is an experience I won't forget.

Nicholas Dunn-England. While I have been at RFA, I have enjoyed working for the Knight Times, participating in Marching Band, and taking Journalism courses. I plan on continuing my education at a university after graduation, to become a musician. I feel that there is an excess of paper work here, unlike England. I enjoy most American food but I miss fish & chips. Meeting the other exchange students and making new friends here has been rewarding but I will miss everyone at the end of the year.

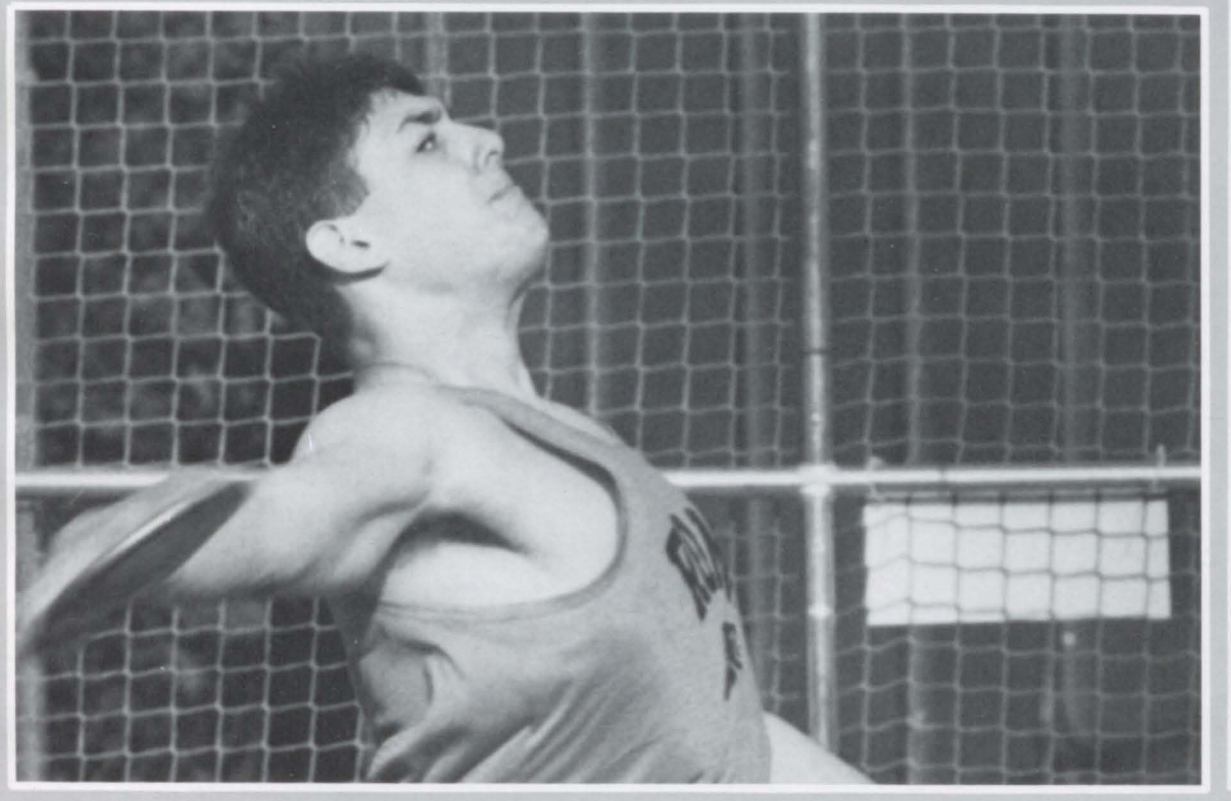
Karine Del Moro-France. I came to America for two main reasons, one was to improve my English and the second was to live in a country that I love and respect. I appreciate that in America, the people believe in their flag and the freedom it represents. Coming to America, I have realized that I can be independent and achieve my goals. I did expect Americans to be more interested in what foreign people are and can offer. I am not dissatisfied and I am glad that I came.



Lukasz Potocki-Poland. I came from Poland to experience the American way of life. I like school here at RFA, even though it is very different from that in my country. I like the American sport of basketball and I am planning on trying out for the junior varsity team while I am here. I miss my family and will be glad to go home at the end of the year.

STICKS DOWN! Nicole Rushton tries to gain control of ball in Section III Class A Field Hockey Final at the Carrier Dome in Syracuse.

WINNING FORM! A.J. Ciccone displays Olympic form as he wins the discus at an R.F.A. track meet.



ATHLETICS

CHAMPIONS! Juan Canalda, Scott Tracey, Mike Wehnke, Dan Lokker, and Bill Menter all grab a piece of the Section III Class AA Football Championship banner. The Black Knights finished the season as undefeated Section III and OHSL champions!

During Homecoming SADD members display signs about the dangers of driving while intoxicated.

The primary purpose of SADD is to educate students about the number #1 killer of teenagers - drinking and driving. By following the SADD motto, "Friends Don't Let Friends Drive Drunk" students are able to help each other survive in a society where consumption of alcohol can be and often is part of the daily routine. Note: SADD does not condone the consumption of alcohol by those below the legal drinking age; students are encouraged to obey the laws governing the legal drinking age in the state of New York. Club meetings, field trips, and school dances are the means by which this message is conveyed.

To be a member of SADD each student has created a working relationship with their parents through the use of the "Contract For Life."

Acting as a service club in the school and community, the Block R Club promotes: the highest ideals for sportsmanship through competition, high standards for athletics, leading by example, both on and off the field, and loyalty to club and school. Leadership skills are developed by planning dances, car washes, and individual participation in the Rome Athletes Care Program (RAC) in the elementary schools.

The Block R Club works very closely with the R.F.A. Pep Club. Together they promote school spirit with sign making and spirit building activities. Block R also assists the Pep Club with money for paints, paper, and supplies. This money is raised through the operation of the soda machine operated after school for sports and activities.

Another aspect of the club is to learn about past and present black history. Another important aspect of the club is to promote preservation of the black culture.

Drama Club meets during Wednesday morning activity periods. The meetings are not only instructional of different acting techniques, the students also participate in various theatre games. Workshops are given during the second semester to teach Drama Club members how to prepare for auditions, present monologues and act out scenes.

Not all Drama Club members appear on stage. Many help out backstage joining one or more committees that support each production. Committees include set construction, make-up, lighting, props, and refreshments/ushers.

The 1992-1993 school year has been a very productive one for RFA's Drama Club. In December, they presented the humorous mystery farce, "The Musical Comedy Murder of 1940," followed by the children's musical, "You're A Good Man, Charlie Brown." This was the first year we presented "An Evening of One Act Plays," directed and performed by Drama Club members. Two unique fund-raisers this year were the "Fashion Show" and the always-embarrassing, "Singing Telegrams."

Even with this full schedule, the Drama Club managed to travel to New York City to see the Broadway production of "Les Miserables."

marijuana
no matter what you call it, don't call it harmless.

Smoking marijuana can damage your lungs. It can also impair brain functions like thinking, learning or remembering. It can even pose potential harm to your reproductive system. Not to mention making you feel apathetic, alienated, insecure or paranoid. If you still think that smoking pot is relatively harmless, then think about what it can lead to.

Cocaine. Crack, Heroin.

Fight drug abuse with facts.

IN MEMORY OF

MATTHEW R. TYLER

We will never forget the day, March 10, 1991,
It made us realize the importance of life,
For we had lost our good friend Matthew Tyler.
Some of us were with him on the way to the mall,
Others were home relaxing with their families,
But everyone was soon informed of the tragedy.
Matt was a Rome Free Academy bowler who loved to laugh,
He possessed a sparkling smile and wonderful personality,
And most of all he was a true friend to everyone.
We have many memories of the times shared together,
Eating pies at Heat of Fusion without using his hands,
And helping to make the Energizer bunny a success.
He will never leave our hearts, our minds, or thoughts
And we will never truly want to say goodbye to him,
But now as seniors we would like to thank him.
As his class of 1993 graduates from high school,
He will help us to remember what is important,
What we have and what we have lost is just that.
Matt is included because he is still a part of all of us,
He has been a true friend for everyone even in his absence.

To graduate, or not to graduate: there was no question.
Whether Cornell, Cortland, or MVCC was the problem we had
The question of money and all of the choices,
Or to take a military way or job,
And then to go through with it? To stay: to leave;
No more; and by diploma to say we end
The heart-ache of high school; friendships galore
Will be missed as we go our future way
Hoping to keep them together forever. To stay, to leave;
To leave: perchance to dream: ay, there's the answer;
For in our graduation coming soon
When we have finished and said our goodbyes,
We must give thanks: that's how we got here
And that's how we will get to where we are going;
For we have borne the tests and exams of time,
The teachers' demands, and the coach's orders
The pangs of losing friends and lost relationships,
The mistakes we learned from and the losses
That made us stronger and better people,
To handle the world of tomorrow today
All by ourselves? no one is there to help us,
To answer us and all of our new questions,
But we have been prepared and are ready for life,
The undiscovered country awaits us
One day we will return, the time is questionable
And our hopes of coming back will bear the ills we have
Rather than take them on all alone.
Thus RFA has made us very strong;
And thus we are ready for the world today;
Its challenges and obligations await us,
As well as its opportunities and rewards
With our determination and motivation,
And personalities, we will succeed - Do not despair!
The class of 1993 will perform enterprises of great pitch and moment
And never lose the name of action.

TO THE SOPHOMORES:

Memories of the past
are feelings that live inside
forever and ever, on and on,
never to subside . . .
The times we've shared together.
We are just beginning the old,
and later when we're older,
our memories will be told.
Then the time came
we've finished our mile
saying "goodbye" with tears in our eyes,
keeping our memories,
which always leave us with a smile.
